

IN 2025, SIMS FOUNDATION CELEBRATED IT'S 30TH ANNIVERSARY, COMMEMORATING MORE THAN THREE DECADES OF PROVIDING MENTAL HEALTH SERVICES TO OUR LOCAL MUSIC COMMUNITY.

Since our founding in 1995, the SIMS Foundation is proud to have achieved the following impact on our local music community.

"SIMS is one of the most important resources Austin has for those in need in the local community. In a society where healthcare is a privilege rather than a right, SIMS has flipped the script for people with limited resources by providing real care, expertise, and financial support."

2025 IMPACT

In addition to the cumulative impact SIMS has had over 30+ years, in 2025 we made much-needed changes to our service delivery model to better serve and expand on our ability to continue to support the emotional wellness of our local music community for the next 30 years and beyond!

We were also able to continue our deep service to musicians in Travis County, who have been duly impacted by the rising cost of living and need services like SIMS to continue to thrive as working musicians in the Live Music Capital of the World.

370

music industry professionals received ongoing care in 2025

92%

clients reported their mental health had stabilized or improved after connecting to SIMS

3 of 4

clients relied on SIMS to help supplement the cost of their care

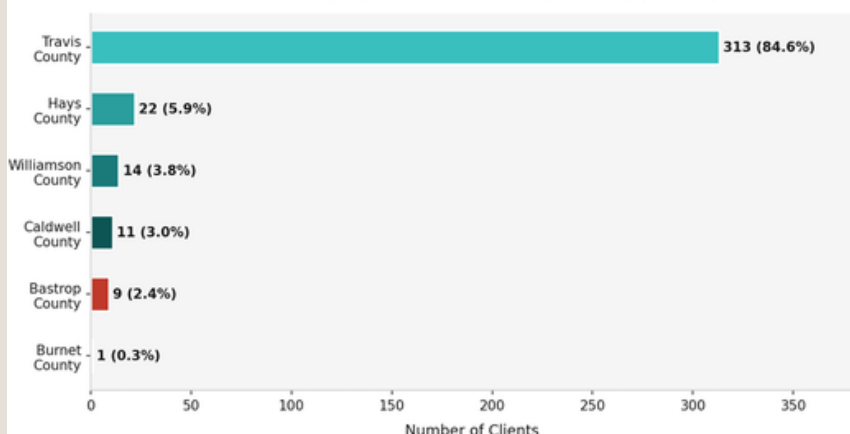

1 of 4

clients were able to access care through their existing healthcare insurance

"It can feel very vulnerable to ask for help and share mental health or trauma related info ... The SIMS folks I've interacted with have been nothing short of miraculous agents of good in my life and my child's life. We receive trauma-informed services that allow us to heal and be a family. SIMS is a source of healing, stability and growth in our lives. I am deeply grateful."
